Dear Mr. Nowak:

We request an 18-day extension for submission of the above-referenced report. The approved sediment and surface water sampling was conducted on 30 and 31 July 2003 in accordance with our 3 July 2003 letter, and the NJDEP's 19 May 2003 approval of our 20 December 2002 Sediment and Surface Water Sampling Workplan. We are currently in the process of evaluating the data and report preparation. The extension is being requested to allow for additional time deemed required for data evaluation, completion of the report, and client and attorney review.

The current deadline for report submission is 22 September 2003. We request that this be extended to 10 October 2003. We look forward to your favorable response so that we may submit a complete report. Please call us if you have any questions regarding the above.

Sincerely yours,
HALEY & ALDRICH, INC.
